

Instructional Annual Program Review Update Form

BACKGROUND:

Program Review (PR) is an integral part of the campus planning process. As programs and areas monitor their progress on the current comprehensive four-year program review, changes in need and scope can be expected. This PR Update Form is designed to outline and request modifications to the current program review that occur between comprehensive four-year review cycles, as needed.

Examples of a requested change include new information such as action plans, outcomes modifications, personnel changes, technology needs, and capital expenditures requirements. As programs and areas monitor their progress on the previous comprehensive four-year program review, the form provides the basis to suggest a change in plans and processes to improve student success and institutional effectiveness.

DIRECTIONS:

This form shall be completed annually by ALL instructional programs.

- All instructional programs must submit their Annual Program Review Update Form to their dean or manager by Monday, March 6
- All deans or managers will forward the completed form to the Program Review Committee Chair by Monday, March 13.

SUBMISSION:

Program: FASHION Division: TECHNOLOGY AND ENGINEERING Date: 3/9/2023

We have reviewed our most recent self-study and **have not identified** any significant changes that necessitate resource requests for the upcoming academic year. *(Complete only pages 1 and 2)*

We have reviewed our most recent self-study and **have identified** significant changes that necessitate additional resource requests, which are attached in our submission. *(Complete the entire form)*

Revised 01/27/2023

Part 1: Review of Data

Institution Set Standards (ISS)

Program Course completion and success rates

Fashion Program Success 69.9% rate

Fashion Program Completion 78.4% rate

Success standard

25 of our Fashion courses are 64.6% exceeds

8 of our Fashion course are below 61.2%

1 of our Fashion course has a warning 63.3%

Completion standard

25 of our Fashion courses are 78.6% exceeds

7 of our Fashion courses are below are 74.5%

2 of our Fashion courses have a warning 75.0%-78.3%

We attribute our success to:

1. If your program meets or exceeds the standard for completion and success, to what do you attribute your success?

- Do not offer classes that are combo classes.
- The fashion department feels there is a satisfactory correlation between the number of certificates/degrees a course satisfies and how many times a course has been offered in the last 5 years.
- In addition, the fashion department is very careful to offering pre-requisites and subsequent classes back-to-back. For example, FASH 220 Retail & Fashion Buying is offered in the Fall while subsequent class FASH 221 Adv Retail & Fashion Buying is offered in the Spring.
 - This is consistent for each academic school year in order to meet student demand and help students reach academic goals.
 - This is consistent with the Fashion department's pathways.

We do not meet the standards:

2. If your program does not meet this standard, please examine the possible reasons, and note any actions that should be taken, if appropriate.

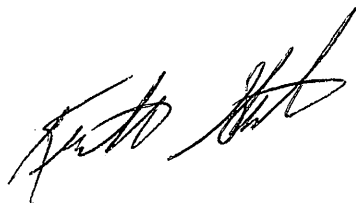

- Try to reduce combo classes so the student can finish their degrees and certificates.
- Our 2024 curriculum will have substantial changes which is being worked on now.
- Completion/success rates of the 9 courses are attributed to students who get a D or lower in a course might not or might actually learning the material (i.e. attaining the SLOs) but they are

winding up with a failing grade for other reasons: absences, tardies, missed assignments, missing final exams, poor performance on high-stakes assignments.

- Right now all of our computers are along the perimeter walls/sills of the 733 classroom. The fashion program requires a separate fashion computer lab classroom on the 2nd floor of the 700 building. This computer lab will be dedicated to educating students on CAD, adobe photo shop, illustrator and in design, e-commerce, fashion marketing, grading, Digitizer, Plotter, Printer, Optitex, and possibly other production related computer programs.
- **Course completion** has been slightly decreasing with a dip in 19/20 due to the COVID-19 pandemic
- **Student success** rate has been fairly consistent with a slight dip in 19/20 & 20/21 due to COVID-19 pandemic.

Note any actions that should be taken, if appropriate.

- Another classroom with updated 16 computers workstations with convertible desks.(We asked for this in previous program review years).
- Six Year Review of our Degrees and Certificates in progress
