RESOURCES

Tyler – NOCCCD sustainability plan and Campus STARS report

25-26 baseline GHG plans, coordinating with Cypress to combine with FC and NOCE. FC needs purchasing information (janitorial and paper, Scope 3 data)

Solar project plans at Cypress and NOCE before Feb. 2026 with July construction start

STARS update – needs letter of verification, Fullerton Central plant square footage, + purchasing data for submission

No changes at District to align with AP, due to campus autonomy in purchasing janitorial + computing, paper purchasing is controlled by District

Does the committee efforts shift away from planning and move toward actions?

SAGE professional development course timeline: spring workshop development, summer 2026 first cohort

EV chargers, utilization down 10% from July 2024, removing 4 hr time limit may increase utilization,

Solar panels slightly ahead of payoff timeline

Earth Day Symposium

Who is going to coordinate the event and speaker?

- Advertising, speaker coordinator/paperwork, day-of event activities
- Good use of Faculty Fellow Initiative (future)
- Book room for April 22nd (Daniel)

Invite Campus Comms for Nov. Meeting to ensure more members can attend.
